

STC's Web Hosting Plans

compiled by Michael Foster, STC Network Systems

STC Network Systems provides several options for affordable Web hosting.

For a service-oriented businesses, we have **www.service-net.us** which charges \$10 a year for a single Web page and an e-mail address. The cost for having a few pages and multiple e-mail addresses is just \$20 a year.

For non-profit organizations and private persons, not engaged in a commercial enterprise, it costs as low as \$49 a year *.

For commercial businesses, the price is as low as \$99 a year *.

These base prices include original installation and setup along with unlimited e-mail forwarding addresses (e.g. "your.name@your-domain.com" → "somename@privateemail.com") This also includes a limited number of full e-mail accounts accessible via a desktop mail client (i.e. "Outlook", "Eudora", etc.) and via Web mail through your browser.

In addition, the annual fees shown above include minimal, basic changes as needed.

** Domain name registration is not included in these prices, but is available at reduced rates.*
